Faculty and Staff

Faculty Salary, Benefits, and Total Compensation

Average inflation-adjusted salaries for full-time instructional faculty increased 20 percent from 1979–80 through 2004–05. Faculty at private 4-year doctoral universities had higher salaries and benefits than faculty at other types of institutions.

Adjusted for inflation, the average salary for full-time instructional faculty has increased by 20 percent over the past 25 years to \$63,300 in 2005 (see supplemental table 48-1). Average salaries were higher in 2004-05 than in 1979-80 for faculty in all academic ranks. The increase was greatest for instructors, whose average salary increased by 37 percent, followed by 25 percent for professors. The average salary increased at all types of institutions as well, ranging from a low of 8 percent at public 2-year colleges to a high of 41 percent at private 4year doctoral universities. Overall, the average salary increased more at private than at public institutions.

Faculty earned the most, on average, at private 4-year doctoral universities. In 2004-05, full-time instructional faculty at private 4-year doctoral universities earned \$13,700 more than full-time instructional faculty at public 4-year doctoral universities and between \$28,400 and \$50,800 more than their counterparts at other types of institutions.

Fringe benefits for faculty have increased proportionately more than salaries since 1979-80 (66 vs. 20 percent). As with salaries, faculty at private 4-year doctoral institutions received more in benefits, on average, than their colleagues at other types of institutions. Combining salary with benefits, full-time instructional faculty across all types of institutions received a total compensation package averaging \$79,900 in 2004–05, about 27 percent more than they had received in 1979-80.

From 1979-80 through 2004-05, the proportion of full-time instructional faculty on 11- or 12-month contracts increased from 13 to 17 percent (see supplemental table 48-2). However, their average salary and benefits increased less than those of faculty on 9- or 10-month contracts (10 vs. 21 percent for salaries; 45 vs. 70 percent for benefits).

¹ Total compensation is the sum of salary and fringe benefits. Salary does not include outside income. Fringe benefits may include, for example, retirement plans, medical/dental plans, group life insurance, or other benefits.

² Institutions in this indicator are classified based on the number of highest degrees awarded. For example, institutions that award 20 or more doctoral degrees per year are classified as doctoral universities. See supplemental note 9 for more information about classifications of postsecondary institutions.

NOTE: Full-time instructional faculty on lessthan-9-month contracts were excluded. In 2004-05, there were about 2,600 of these faculty, accounting for less than 1 percent of all full-time instructional faculty at degree-granting institutions. Salaries, benefits, and compensation were adjusted by the Consumer Price Index (CPI) to constant 2003-04 dollars. Detail may not sum to totals because of rounding. See supplemental note 11 for more information about the CPI. See supplemental note 3 for more information about the Integrated Postsecondary Education Data System (IPEDS).

¹Total compensation is the sum of salary and fringe benefits. Salary does not include outside income. Fringe benefits may include, for example, retirement plans, medical/dental plans, group life insurance, or other benefits.

² Institutions in this indicator are classified based on the number of highest degrees awarded. For example, institutions that award 20 or more doctoral degrees per year are classified as doctoral universities. See supplemental note 9 for more information about classifications of postsecondary institutions.

NOTE: Full-time instructional faculty on less-than-9-month contracts were excluded. In 2004—05, there were about 2,600 of these faculty, accounting for less than 1 percent of all full-time instructional faculty at degree-granting institutions. Salaries, benefits, and compensation were adjusted by the Consumer Price Index (CPI) to constant 2003—04 dollars. Detail may not sum to totals because of rounding. See *supplemental note 11* for more information about the CPI. See *supplemental note 3* for more information about the Integrated Postsecondary Education Data System (IPEDS).
